

Wedding 2010

Hi Guys,

Thank you so much for such a wonderful evening of music and dancing! Your selection was outstanding, and you played just the right set for every section of the evening. We've had so many comments on the "wonderful musicians" from our guests, and the fact that some didn't leave the dance floor all night speaks volumes! We really appreciated your professionalism throughout the planning process as well as on the night, and your prompt and calm responses, even when we had to change the venue only weeks out. To top it all off, you learnt our song for us so we could do our first dance together-perfect.

Thank you so much once again for helping our night to be all we wanted it to be!
